PERSONAL PROJECTS

IMAGE-CLASSIFIER (09/2021 - 01/2022)

Description: Code to train a new deep learning network on a dataset and save the model as a checkpoint. Code uses a trained network to predict the class for an input image. **Library used:** CNN, OpenCV, image segmentation. <https://image-classifier-01.herokuapp.com/>

PORTFOLIO (01/2022 - 01/2022)

Description: A portfolio is a way to document your professional journey and demonstrate your skills and abilities. It can be a collection of your work and accomplishments in either a physical or digital format. **Tech-Stacks:** html, css, javascript.

TYPING GAME (02/2022 - 03/2022)

Description: Usually, a typing game will require the player to quickly or precisely type in words - or individual letters, numbers, or other keys - that display on the screen to proceed in the game, functioning as both a challenge and a means to improve one's skill at touch typing. **Tech-stacks:** html, css, javascript. https://arjunch0001.github.io/arjun_01/
